

Yesterday's Names

Special Sample Extract for “Your Family Tree”

Old parish magazines contain a wealth of information of interest to family historians, and Yesterday's Names specialises in producing name indexes and scanning parish magazine page images to make this data widely available.

To give a flavour of this, Yesterday's Names has produced a special sample for Your Family Tree readers from our CD based on the monthly issues of “Christ Church, Leeson Park, Parochial Magazine” published in 1884. This sample contains a list of all of the names featured in the magazines, as well as some sample pages from the data on the CD, to illustrate the types of information available for each name in our index.

Details of all Yesterday's Names parish magazine index and image CDs can be found at www.YesterdaysNames.co.uk which lists the parishes currently indexed, along with the surnames listed in each index.

Yesterday's Names

Christ Church, Leeson Park, Dublin

1884

Produced from

"Christ Church, Leeson Park, Parochial Magazine"

Special Sample Extract for Your Family Tree

Parish magazines were published, usually monthly, from the late 19th century, as a means of informing parishioners about Church services and other Church related events in the parish. They vary greatly in content between different parishes, some containing very little information of interest to family history researchers, others containing vast amounts of useful data that can provide vital clues. Most parish magazines list baptisms, marriages, and burials, with varying degrees of detail, but they often also give details of other events, such as prizes awarded at Sunday schools, names of players in local cricket matches, winners at flower shows, etc. They also frequently list the names of people who made donations to various Church funds. Although parish magazines tend to extol the deeds of the parish gentry, whose lives were very closely interwoven with the Church, they do also sometimes contain fascinating snippets of information about the more lowly parishioners.

The magazines for Christ Church, Leeson Park, are different to most others, in that they do not contain any details of baptisms, marriages or burials, but do instead contain many lists of people who donated money to the church (a few with addresses), as well as some lists of school prize winners and flower show winners. Christ Church was originally consecrated as a chapel for the Molyneux Asylum for the Blind, and as a result, in addition to administering to the spiritual needs of the 56 Protestant female blind inmates of the Asylum (a few of whom are named in the index), a key function of the church was to raise funds for the upkeep of the Asylum. Hence the large proportion of the magazines that is dedicated to reporting on donations.

This document is an index for use by family history researchers, and is intended to help identify potential further avenues of research, or to add snippets of background information about individuals. It has been produced from a series of parish magazines, but is NOT a full transcription of them. The document is fully searchable using Adobe Acrobat Reader.

The document is in a number of sections, as follows :-

- Name index – a summarised list of the names featured on the full Yesterday's Names parish magazine index CD for Christ Church, Leeson Park. A summary of the types of records found, year, and magazine issue is listed alongside each name.
- Sample Index by name – for a subset of data from the full CD, gives an overview of the various indexed events associated with a person, and makes it easier to look for name variants.
- Sample Prizes data – for a subset of data from the full CD, lists details of prizes and awards mentioned in the magazines. These are mainly prizes associated with religious and general inspections of day schools, and flower shows.
- Sample Donations data – for a subset of data from the full CD, lists details of donations mentioned in the magazines.
- Sample Miscellaneous data – for a subset of data from the CD, lists a selection of roles and events mentioned in the magazines in the sequence in which they appeared.
- Sample Extracts – for a subset of data from the CD, contains transcriptions of a small selection of articles describing events associated with named individuals.

Apart from the Index section, all other sections of this document include a column headed "Further info". If this column contains the word "Extract", then the event described on that line is detailed further in the Extracts section. If the column contains "Y" against the event, then there is further information about the event in the magazine (often just describing more about the context of the event) but this has not been transcribed.

The column headed "Residence" contains any further information given in the magazine about where an individual lives. This may be a street or building within the parish, but may also be a town or village outside the parish.

HEALTH WARNING

As with any index, it is important to confirm facts by reference to source information. This is particularly true with this index.

- For example, information about baptisms, marriages and burials would have been transcribed from the parish register and given to the magazine printer, and may well have been corrupted during this process. It is evident that there are variations in spelling of names, etc., in the magazines. In addition, when transcribing from the magazine to this index, although great care has been taken, it is still possible that errors could have been introduced.
- Married women were usually referred to by their husband's name. For example, if Elizabeth Brown married John Smith, she would thereafter be referred to as "Mrs. John Smith".
- This index contains names transcribed exactly as printed in the magazines. People were frequently only referred to as "Mr. Smith" or "Mrs. Jones", and no assumptions have been made in the index about whether the "Mr. Bloggs" referred to on one page of the magazine is the same person as the "Mr. Frederick Bloggs" referred to on the next page.

As already mentioned, this document has been designed to aid those researching family histories. It has not been designed for those researching local history, church history, or the clergy, since only information that may be of interest from a genealogical perspective has been included.

Copies of parish magazines are often difficult to obtain, but collections of them are sometimes to be found in county record offices or local libraries. Information about baptisms, marriages and burials can be checked using films or transcripts of parish registers available at county record offices, at LDS Family History Centres, or from local family history organisations. Many of the other events mentioned in the index may also have been recorded in local newspapers, and films of these are often available in county record offices, libraries, and at the British Library Newspaper Library in London.

THE TEMPERANCE SOCIETY

Held its monthly gathering on Wednesday 26th. The attendance was large, and great interest was displayed throughout.

The entertainment was arranged chiefly with the view of interesting the juvenile members, as they had been excluded from the Social Meeting in February. While the children mustered in force, there were also a large number of adults present, who seemed to enjoy the various items of the programme no less than the youngsters.

Several Temperance Songs were sung by the members of the Band of Hope Choir in a way that reflected credit on the kind ladies who teach them. Songs were sung by Miss Boyd and Mr. George Dobbin with great effect. Mr. E. St. J. Corbett and Mr. J. K. Foote delighted the audience by clever and amusing readings. How highly their talent and humour were appreciated was proved by the applause which greeted them on their second appearance.

A very interesting Temperance Address was delivered by Mr. Henry A. Cosgrave, Hon. Sec. of the Hibernian Band of Hope Union, who earnestly advocated the advisability of all joining the ranks of the Society. Mr. Cosgrave based his argument on these considerations—

1. That Total Abstinence was good for the health.
2. That it was desirable from a financial point of view.
3. That for the sake of others it was the duty of all to deny themselves in this matter, and by bearing one another's burdens to fulfil the Law of Christ.

After the Meeting 12 new members joined the Society. The Chairman announced that our society was now affiliated to the Hibernian Band of Hope Union, so that all members will be able to compete for the various prizes at the Industrial Exhibition to be held (d.v.) at Ball's Bridge, on June 27th.

BAZAAR.

The annual Sale of work in aid of the fund for the support of the Inmates of the National Institution for the Blind, was held in the Litton Schoolhouse and the adjoining room on the 5th and 6th March. The rooms were decorated with flags and evergreens, and the stalls were well supplied with useful and ornamental articles. The flower stall, especially, attracted much notice; it presented the appearance of a high bank of moss, thickly covered with flowers of every variety, from the common Primrose, to the Camelia and Orchid of the hothouse; the flowers having been sent not only from distant parts of Ireland, but also from the south of France; and so little had they suffered from the journey, that they appeared as if but just picked, or even as if still growing on their own roots in the moss.

One of the most interesting features of the bazaar, was the presence of some of the blind girls, who were engaged in various occupations, such as reading, writing, chair-seating, basket making and wool work. The great object of this valuable Institution, being to develop, as far as possible, the faculties of each individual, and the success with which this is being done was amply testified by the bright, intelligent faces and busy fingers of these blind girls. A long table was devoted to specimens of the Inmates' work; these reflected much credit on the Institution, and obtained a ready sale; the receipts from this table being £5 in excess of last year. The Inmates at present number 56, varying in age, from 6 to upwards of 80 years. The maintenance and education of the blind necessitates a large expenditure, and this being a National Institution for the benefit of the Protestant female blind throughout Ireland, it appeals to the sympathies of all Protestants in the country, and should not be allowed to depend for its support on the congregation of Christ Church, Leeson Park, who have many other claims and duties to fulfil. The annual sale of work does much to supplement the regular subscriptions; the result on this occasion amounting to £261 5s. 5d.
